

# A selection of our most iconic projects

OTTOSTUMM | **mogs**

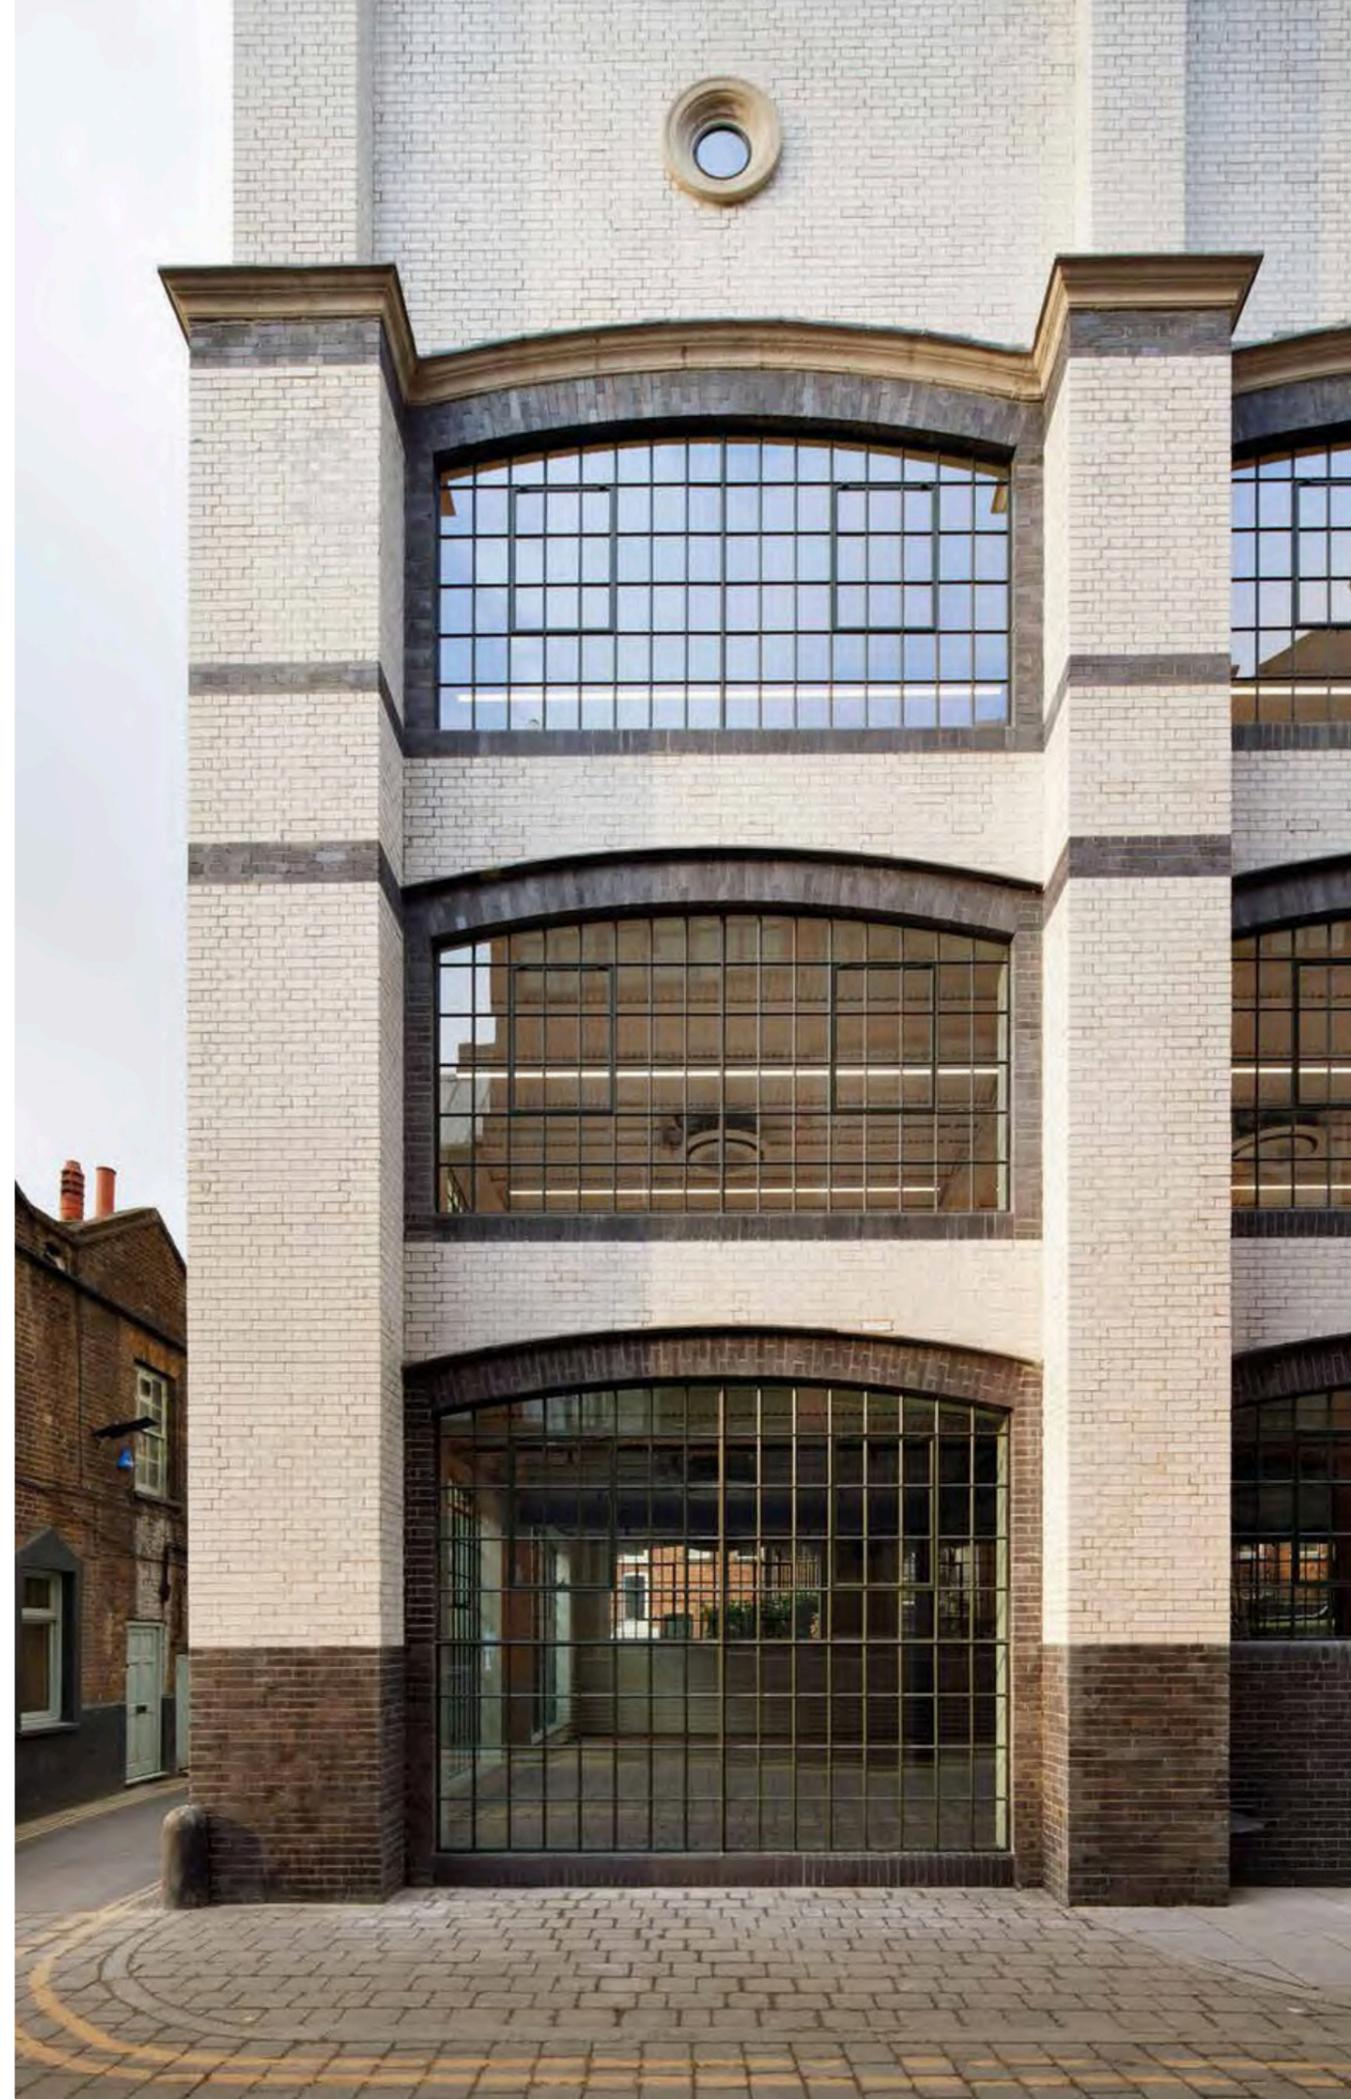

# Celebrating Timeless Beauty

[sales@steeldooronline.co.uk](mailto:sales@steeldooronline.co.uk) | 01525 552131

The most iconic style ever lives again in the collections of steel and architectural bronze systems by Ottostumm | Mogs, for windows and doors inspired by the elegance of early 20th century architecture. A timeless style, which for over a century has adorned the facades of the world's most beautiful palaces and buildings, reinterpreted in a contemporary key by Ottostumm | Mogs systems. The different finishes of steel, the warm shades of Cor-Ten and the chromatic effects of bronze, give life to palettes of vibrant tones. Material suggestions and precious finishes offer tailor-made solutions for every project. The versatility of Ottostumm | Mogs systems meets any need, from contemporary architecture to the redevelopment of historic buildings, allowing for any type of opening, in every design and dimension.
